FUJITSU Tablet STYLISTIC V535 Industrial

Tough Tablet for Hard Work

The FUJITSU Tablet STYLISTIC V535 enables new levels of productivity in industrial settings. It is made for rough environments thanks to a water and dust resistant yet lightweight design and combined with a 21.0 cm (8.3-inch) display with toughened glass. Ultimate connectivity and navigation options like 4G/LTE, NFC, GPS and GLONASS as well as a long battery runtime let you stay connected wherever you are. Easy integration and security are enabled due to Windows 8.1 and TPM. The Fujitsu Smart Shell concept is designed to fit to individual industrial requirements.

Made for rough and tough environments

Discover new levels of productivity in industrial and retail settings.

- Rugged water and dust resistant design based on IP65 rating, MIL-STD 810G tested for durability, drop resistant up to 1.8 m (with rugged frame), medical wipeable and with an extended temperature range for outdoor use.

Highly adaptable for industrial use

Individualization to industry- and customer-specific requirements.

- The Fujitsu Smart Shell concept includes a Smart Shell for Mounting to match industrial and transportation use. In addition to that, a Smart Shell with SmartCard reader does not only allow enhanced secure authentication, it also allows the user to read electronic patient cards in healthcare. A Smart Shell for retail is ready to hold a Chip & PIN reader to enable ePayment solutions. A cradle provides maximum comfort in the office.

Ultimate usability

Full-day productivity.

- Bright IPS display with toughened glass and multi-touch support, even with gloves. Combined with a battery runtime of up to 6.5 hours. Built-in cameras and microphones allow easy collaboration.

Enterprise connectivity and navigation embedded.

Access to data from everywhere, even enabling professional and highly accurate navigation.

- Optionally embedded 4G/LTE, NFC for real-time warehousing or contactless authentication, as well as GPS and GLONASS for highest navigation flexibility and accuracy.

Battery notes	Battery runtime information is based on worldwide acknowledged BAPCO Mobile Mark 2007 Benchmark (readers mode e.g. surfing the internet, writing E-mails, viewing documents) which provides results that enable direct product comparisons between manufacturers. It does not guarantee any specific battery runtime which actually can be lower and may vary depending on product model, configuration, application and power management settings. The battery capacity slightly decreases with every charging cycle and over the lifetime.
