

Stay connected on the jobsite!

A Customizable, Mobile and Secure Collaboration Center
BIMbox Technology Bundles are mobile, self-contained, outdoor-rugged workstations that can easily be placed directly on your jobsite. Follow the action as the job progresses. Equipped with commercial-grade gear matched to your needs, all you add is power and you're in business.

Access empowering productivity and digital collaboration anywhere. You can sync various devices at a jobsite through wireless and direct connectivity. It is compatible with wireless routers and PCs for customization. The RPG BIMbox enables BIM access directly at the jobsite with an on-board, touchscreen TV and multi-product adaptability. The quality steel box is built to protect against theft and resist jobsite conditions. Above all, reach nearly every job on the construction site during any stage of the project.
