

TECHNOLOGY SOLUTIONS FOR THE CONSTRUCTION INDUSTRY

Transforming Communications in Design and Construction

WHY RPG SQUAREFOOT SOLUTIONS

"RPG was invaluable to helping me complete two projects on time and with a small window of opportunity. I would not have been able to complete my work without RPG; I have already recommended RPG as a go-to solution in the future. The staff was friendly and helpful, and I was very pleased overall with the entire experience. Thanks, RPG!"

– John M., Dennis Group

Reliable – From hardware to point cloud data, RPG focuses on our client's timeline and budget. For national multi-location requirements, we pool our resources and vendors to get the job done accurately and on schedule. We develop and communicate in strategic terms what technologies may benefit your organization. We bring leading edge solutions to the table, together with our expertise to help drive performance, compliance, and efficiency in your environment.
