

# HP SmartTracker software

Gain broad control over your printing costs and turn them to your advantage

## CONTROL

### Powerful data tracking and reporting

- Keep track and compare both print costs and reimbursement fees, at the same time
- Generate/schedule easy-to-read reports—use the default templates or customize them to your preferences
- Consolidate tracking and reporting across multiple HP PageWide XL<sup>1</sup> and DesignJet printers<sup>2</sup>
- Get the complete detail—you can access the source data on a per-page basis
- Include Taxes - you can add tax liability to all your reports

## CONSISTENCY

### All your jobs are assigned correctly

- Avoid manual data entry and easily merge data from HP SmartStream/HP Click/driver/front panel/MFP<sup>1</sup>
- Assign jobs by print user, project, and department, or edit the categories to fit your workflow
- Get secure print job assignment, with optional password-protected categories that help prevent errors
- Enable correct print job allocation—submit jobs as billable/not billable, and add comments with more info

## EFFICIENCY

### Easy to use, easy to integrate

- Save time—create invoice-format reports including your company logo
- Avoid manual error—users, projects updated with active directory integration and central projects database
- Free up time—integrate with your current accounting software by easily importing or exporting .csv files
- Make better use of the team's time—automatic fill-in with the last credentials used helps simplify printing
