

A Perfect Solution for Interactive Businesses

Why choose RPG's PlanView Plan Table?

The digital, touch screen PlanView allows you to have all of the interactive advantages of a "paperless" workflow, while maintaining the familiarity of a traditional plan table. Use it tilted to work by yourself or with colleagues. You can also set it to vertical to present to a group or to save space when it isn't being used. The PlanView is ideal for takeoffs, collaborations, markups, editing and presentations in a group setting. Whether you're looking to annotate existing plans, create new plans or

review documents, spreadsheets and more, RPG's PlanView Plan Table can help you get the job done quickly and efficiently. ***It is fully compatible with Bluebeam and Revit.***
